RESPECT

Respect my space.

We spend 40+ hours a week together in this place.

Enjoy being the person you are,

but don't let arrogance carry it too far.

Stay on your side of the desk or bench.

Exercise some common sense.

Perfumes applied with a delicate touch

will spare others from choking and such.

Everyone was hired to do a job.

Stay out of my business if your name isn't Dr. Bob.

Consider how others perceive your behavior.

You don't want them to treat you with disfavor.

Trust that I am capable of learning what I need.

Some of us even have Master's and Ph.D.'s

Mumpsimus is a word to savor.

Look it up ... do yourself a favor.

You do your job, please let me do mine.

Unsolicited "help" crosses the line.

Share your aptitude and your skill without being such a know-it-all you make others ill.

Plagiarism is not a trait to be admired.

Goodwill towards you will fast expire.

Accept on occasion that you make mistakes.

Think you're perfect, you're a fool and a fake.

Control your volume and your tone.

This is a work place, you're not alone.

Each and every moment is a gift.

Smile, give someone's day a lift.
